

**PRESENT HOME:** The San Diego County Library has been housed in this building at 7735 Pacific st. for the past ten years. The building was developed to library specifications by owner Ira Durham, deceased. The building is at the southeast corner of Pacific and Olive.

**FUTURE HOME?** — A feasibility study has been made and if the Board of Supervisors approve, this will be the new home of the San Diego County Library, Lemon Grove branch. The building, at 7951 Broadway, is the former

Post Office building and was partially remodeled for a teen-age dance club — which failed to open in the face of community disapproval.

# Branch Library Move Stirs Up Hornet's Nest

### County May Move Facility; Old Post Office Site Eyed

A property acquisition official for San Diego County said Friday that the Lemon Grove Library will be moved — if his feasibility studies are headed.

The study was reported by Ralph Weismann, right-of-way agent, purchasing department, property management for the County of San Diego.

Weismann said the study showed that the new location at the former location of the Lemon Grove Post Office, would afford about one thousand square feet more space, more rest room and storage facilities than at the present building at 7735 Pacific st.

The former Post Office address is at 7951 Broadway. Mrs. Ruth Pedler, Lemon Grove librarian for the past nine years — until she retired earlier this year, said Friday that the Pacific st. facility was "adequate."

The Post Office was built by David Sapp Construction Co. in 1956 under a Post Office "austerity" program. After the Post Office was moved across the street, earlier this year, a Newport Beach dancant impresario attempted to get a dance hall license for a teen-age dance club for the place but was turned down by the sheriff's office. He appealed in the County Supervisors but failed to appear at a hearing.

Some remodeling was done to the building by the dance people. The lease on Pacific st., calls for \$425 a month rent according to Jack Durham, building owner. The library was built by Jack Durham's father Ira in 1958.

The Post Office building would rent for \$375 a month, if the \$50 reduction against the present rent is a correct figure.

"It's a silly idea to move the library to that place," said A. E. "Bob" Howell, local realtor and tax consultant. "The location is not suitable for a library. The added traffic on Broadway will make it more dangerous if they move there."

"Someone should say a word for the aesthetics of a library," said Dr. Frank Gigliotti. "The building does not lend itself to a library function."

The same set of circumstances would be present with a library as would be present with a teen-age dance hall operating there," said Attorney Frank Armstrong. "There is no safe parking in front of the old Post Office where traffic is extremely heavy, nor in back that offers little more than alley-parking."

The library move feasibility study will be turned over to the County Board of Supervisors when it is completed. Weismann said. He said that "but nothing is nailed down yet" and that no action would be taken until the Board of Supervisors acted upon the study.

Meanwhile, Durham said that he has been informed by the County property management department that the building will be vacated.

He said that no negotiating was done by the County on the lease arrangement. The County had been paying \$400 a month for 10 years. He asked for an increase of \$25 on a five-year lease he said. "Increased taxes dictated that move," he said.

This newspaper has started a Save Our Library project (see editorial, page 1) by which it is hoped that citizens who want to keep the library in its present location will contribute pennies, nickels and dimes to meet the difference between \$375 a month and \$425 — or whatever lower figure that can be negotiated with Durham.

If contributions are made and not needed, the funds will be given in the donor's name to the USO fund in San Diego.

Ayers also commended the American Legion for its efforts in attempting Marcuse's removal. Ayers is a member of the American Legion.

Ayers stated in a talk to campaign workers that "Marcuse is an avowed Marxist and his philosophy of tearing down our present system and replacing it with a left-wing dictatorship is nihilistic in approach."

"Marcuse is on record as favoring violence, which he calls, 'socially useful destructiveness,'" he said.

He questioned whether or not the violence that resulted in the murders of Senator Robert Kennedy, John F. Kennedy, and Martin Luther King, was "socially useful destructiveness."

Ayers said that "In Europe, New Left students carry banners reading, 'Marx, Marcuse, and Mao.'" "Academic freedom should not include the advocacy of violence," said Ayers.

"It is an insult to the taxpayers of California that their money is being used to support such a man. Allowing Marcuse to teach at our distinguished university system has an effect of lending respectability to Marcuse's avant garde doctrines."

"When elected Assemblyman for the 77th," Ayers said, "I shall work for effective legislation that will prevent future employment of those persons advocating destructive violence, such as Marcuse."

Community leaders along with Supervisor Robert C. Dent, and area fire chiefs and their representatives are also expected to attend the function.

Lawton, who was assistant fire chief, is the first man to retire from the department.

The retired chief was instrumental in the formation of the Spring Valley Fire Department both as a volunteer organization and later on as a full time firefighting staff.

Community leaders along with Supervisor Robert C. Dent, and area fire chiefs and their representatives are also expected to attend the function.

More than 100 persons are expected to be on hand at the Memory In. community meeting house tonight at 6:30 p.m. as they honor Lucius Lawton who recently retired from the Spring Valley Fire Department.

**SCHOOL TEAM:** Mr. and Mrs. Garth Gaylord of Lemon Grove are shown as they formulate final plans for methods to be used in their ungraded elementary school that open today in La Mesa.

The couple will teach students between the ages of 5 and 12 years of age at both day sessions and extended day sessions. Gaylord is co-founder of the Whiteman-Gaylord School of Steamboat Springs, Colorado.

## Grove Couple Combine Efforts In Opening Ungraded Elementary School

A Lemon Grove couple are taking a step forward as they combine their efforts in opening an ungraded elementary school in La Mesa today.

The school will be for students between the ages of 5 and 12 years old. It will be in session from 8:30 a.m. until 2:30 p.m. Monday through Friday.

An extended day care session will go from 7:30 a.m. and from 1:30-6:30 p.m.

General supervision, with planned activities, educational excursions, and group in instruction in arts, crafts, swimming and no music will be included.

The two, Mr. and Mrs. Garth Gaylord will head up the school which will educate pupils in a vertical pattern of school organization.

The pattern will allow students to move continuously in their studies. The student will determine his own speed in the program.

Gaylord said that two methods used in teaching students

at the Gaylord Academy and the Gaylord Grammar School will be the unit plan and the seminar plan.

In the unit plan the student is involved in individual study while the seminar plan takes in group study. He said that this method will in effect see the student taking a grade of "A" before going on to the next subject in line.

The headmaster holds a bachelor's degree from the University of Wyoming and a Masters degree from the M.A. Teacher's College at Columbia University.

He will combine some 10 years of teaching in public and private schools on all levels. For 4½ years he worked as a probation officer for San Diego County.

He is co-founder of the Whiteman-Gaylord School of Steamboat Springs, Colorado, and has been developing plans for schools since 1947.

The husband and wife team will combine both the old and new methods of teaching. Mrs.

Gaylord, with a background of teaching piano, painting and drawing as well as music in public schools will aid the director.

Gaylord said that one feature of the school is that parents who take their vacations in seasons other than during the summer will be able to take their children with them. The teaching process will not be interrupted.

He said, "The student, because of the personalization in his studies will not be hindered if he misses a week or two."

When asked what subject would get the most emphasis Gaylord said, "Reading will

be the single most important course in the school's curriculum.

"The unit plan emphasizing the phonics approach will be the method used. Word derivation, writing, printing, typing and spelling will be included under this heading."

### Sweaters Are Lifted

Viola P. Canton, of 7109 Central ave., Lemon Grove, reported the theft of sweaters, bath and hand towels from her residence to law officials.

The recent theft is under investigation by San Diego County Sheriff's deputies.

## Mrs. Terry A. Johnston Receives Certificate

Mrs. Terry A. Johnston was given an increase in salary for her sustained superior quality of work while employed as a classroom assistant with the Naval Amphibious School in Coronado recently.

Commanding Officer, Captain Gerald R. Rian, USN, presented Mrs. Johnston with the certificate which officially recognized the commencement of her monetary increase.

Mrs. Johnston graduated from Mount Miguel High School in 1967. She has been a resident of California since 1958 when she arrived here with her parents from St. Louis, Missouri.

She is currently residing with her husband, Gregory H. Johnston, at 1810 Hillsdale rd., El Cajon. Her parents, Mr. and Mrs. William P. Tatman reside at 8141 Braddock pl., in Lemon Grove.

On hand for the informal ceremonies was CDR Theodore R. Larson, USN, Head of the Education Department at the school. Mrs. Johnston has been assigned to the Education Department since beginning her employment in July 1967.

Though hired primarily as a classroom assistant in the amphibious planning course, Mrs. Johnston took it upon

herself to become familiar with the duties of assistants in other courses within and outside her department.

As a result, she became in much demand to fill in during absences of other assistants or during periods of peak workload.

Her overall attitude and per-

## Woman's Club Plans Party

The Spring Valley Woman's Club will gather at the Memory Lane Center auditorium in Spring Valley, Wed., Sept. 11, for a "Getting To Know You" party, honoring new members for 1966, 1967 and 1968.

Mrs. Ralph W. Gray, membership chairman, will present each in a small profile on birthplace, family and hobbies. Mrs. L. W. Butterfield, program chairman, and co-chairman of the event, will be in charge of arrangements.

Dean of Chairman, Mrs. Rolan J. Taylor, will introduce the following committee chairmen and explain duties for the coming year. Amenities, Mrs. J. Brooks Shinn; Auditor, Mrs. John Rosenberger; Budget, Mrs. Albert M. Peters and Citizenship, Mrs. Edward J. Hallam.

Also on Community Improvement and Conservation, Mrs. H. R. Evans; Crafts, Mrs. C. C. Moyer and Mrs. D. G. Rexroad; Education and Scholarships, Mrs. Frank Razzino; Emblems and Publications, Mrs. E. M. Mickelsen and on Flowers, Mrs. Charles Donnelly.

Fun chairman, Mrs. J. W. Clark; Gerontology, Mrs. T. E. Arrington; Good Cheer and Birthdays, Mrs. Don Clark; Health and Welfare, Mrs. W. H. Lewis; Historian, Mrs. Frieda Ralston.

History and Landmarks, Mrs. R. S. Smith and Mrs. Frieda Ralston; Indian Affairs, Mrs. E. A. Wilcox; Inspirational, Mrs. F. D. Dutton, Pennies for Pines, Mrs. Isabella Humphrey.

Also Photographer, Mrs. R. S. Baston; Safety, Mrs. Rolan J. Talor; Secret Pals, Mrs. Clara Bulman and Mrs. M. M. Tenney; Special District Projects, Mrs. T. W. Keller; Telephone, Mrs. Eva Johnson, and Thought for the Day, Mrs. F. W. Hastings.

A potluck luncheon is planned for 12 noon. Mrs. David Bailey, president, will convene a business meeting in the afternoon.

## Auxiliary Unit Meets Tonight

The La Mesa Unit 139, Ladies Auxiliary, Fleet Reserve Association, will hold their regular monthly business meeting tonight at 8 p.m. in the American Legion Hall, 8118 University ave., La Mesa.

The Branch will hold their meeting at the same time and place. Mr. and Mrs. Leonard Foltz, respective presidents of the Branch and Unit will be the presiding officers.

The Branch and Auxiliary recently held a picnic at Admiral Baker Field. Plans are to formulate for a Mountain Breakfast at the meeting.

A new Regional President Southwest Region was elected at the recent Caucus held at the Edgewater Inn Marina in Long Beach. Mrs. Mary Jarrett of Bellflower was elected regional President of the Ladies Auxiliary and Mr. Joseph Morin of Imperial Beach Branch 289 was elected Regional President of the Association.

The caucus was attended by Mr. and Mrs. Marvin Silverman, Mr. and Mrs. Lee Hill Mr. and Mrs. Charles Bem, and Mr. and Mrs. M. W. Sturgis, who represented the Branch and Unit as delegates to the caucus.

Mrs. Marvin Silverman and Mrs. Charles Bem will be delegates to the forthcoming National Convention to be held in San Francisco at the Jack Tar Hotel from Sept. 20-22.

At that time national officers of the Association and Auxiliary will be elected.

The Unit and Branch will have their monthly pot luck dinner at the American Legion Hall on Sept. 19, 7 p.m. Bring a hot dish, salad or dessert and your place settings and join your Shipmates and Ladies.

Branch 139 is handling the sales of American Flag Kits, which sell for \$3.25 and American Flag antenna flags for automobiles. These sell for 25c.

Anyone interested in obtaining these flags may call Mr. Marvin Silverman at 469-0564 or Mr. Leonard Foltz at 469-0267.

The Branch and Unit are urging everyone to fly the flag of our country every day, not just on holidays.

## New Lutheran Pastor Arrives

The Rev. Herbert Johnson, new pastor at Lemon Grove Lutheran Church, will preach his first sermon here at both the 8:30 a.m. and 11 a.m. services on Sunday, Sept. 8.

Pastor Johnson and his family moved here Tuesday from Pacoima, Calif. They will reside in the parsonage at 2235 Deboe dr., Lemon Grove.

Starting on Sunday, the schedule of two services will be resumed. On Tuesday evening, Sept. 10, at 7:30 p.m. the A.L.C.W. will hold their devotional meeting.

Mrs. Freida Ralston, Educational Secretary, announced that the program will be "Psalms in Song."

Mrs. Joseph Kaiser will give the devotions, and Mrs. Aaron Engel will give the offering devotions. Hostesses during the coffee hour will be Mrs. Palmer Svalstad and Mrs. Joseph Kaiser. Mrs. D. F. Ellis, president, urges all women of the church to attend.

The church council will meet at the church at 7:30, Tuesday, Sept. 10.

Now that vacation is over, Mrs. Richard Palmer, Choir Director, urges parents of Junior and Youth Choir members to remind them to come to practice.

The Youth Choir meets every Monday from 4-5 p.m. The Junior Choir meets every Wednesday from 4-5 p.m.

President Woodrow Wilson started the practice of delivering his messages to Congress in person.

Always and Everywhere

Let no one imagine that it is a strained and unnatural thing for one to pray. The contrary is much closer to the fact. It is far more unnatural for one not to pray. Prayer is one of the most natural of human instincts. Prayer is man's response to the divine will.

## Go To Church

## Service Notes

**BRUCE WILLIAMSON**  
Army Specialist Four Bruce R. Williamson, 21, son of Mr. and Mrs. Fred A. Williamson, 4501 Normandi pl., La Mesa, has received his second award of the Army Commendation Medal July 31 near Dau Tieng, Vietnam.

Spec. Williamson received the award for heroism in action against enemy forces in Vietnam, January 1, 1968. Williamson, a radio telephone operator in Company B, 3rd Battalion of the 25th Infantry Division's 22nd Infantry near Dau Tieng, entered the Army in June 1967 and completed basic training at Ft. Ord.

He was stationed at Ft. Polk, La., before arriving overseas in December 1967. The specialist is a 1965 graduate of Mission Bay High School in San Diego.

Mrs. Arnold M. Litvedt, 6801 Central ave., Lemon Grove, has been assigned to the 2nd Armored Division at Ft. Hood, Tex., July 29.

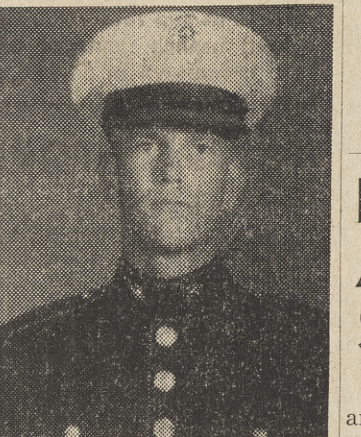

Spec. Litvedt is a bridge specialist with Company E of the 2nd Armored Division's 17th Engineer Battalion. He entered the Army in November 1966, completed basic training at Ft. Ord, and was last stationed in Vietnam.

He graduated in 1966 from Helix High School, La Mesa, and attended Grossmont Junior College, El Cajon, Calif.

**DAVID C. GORDON JR.**  
Army Sergeant David C. Gordon Jr., 21, son of Mr. and Mrs. David C. Gordon, 7035 Casa Ln., Lemon Grove, has been assigned to the 198th Infantry Brigade, near Chu Lai, Vietnam, as a squad leader.

**STEVEN L. WYRILL**  
Marine Private Steven L. Wyrill, 19, son of Mr. and Mrs. Leonard A. Wyrill, 9515 Lakeview dr., La Mesa, has graduated from eight weeks of recruit training at the Marine Corps Recruit Depot.

He will now undergo from two to four weeks of individual combat training and then, after leave at home, will report to his first Marine Corps assignment.

### LTJG BATES

Navy Lieutenant (junior grade) George M. Bates, 24, son of Mr. and Mrs. George Markland Bates, 7760 Canton dr., Lemon Grove, has reported for duty with Commander Coastal Squadron One.

As a member of the squadron he will be assigned to the crew of one of the Command's more than 80 small swift boats. During his one year tour in Vietnam, he will make over 100 patrols while participating in the Navy's Operation "Market Time".

Operation "Market Time" is the Navy's combined air and sea effort to prevent the infiltration of men and war materials by sea to enemy forces in South Vietnam.

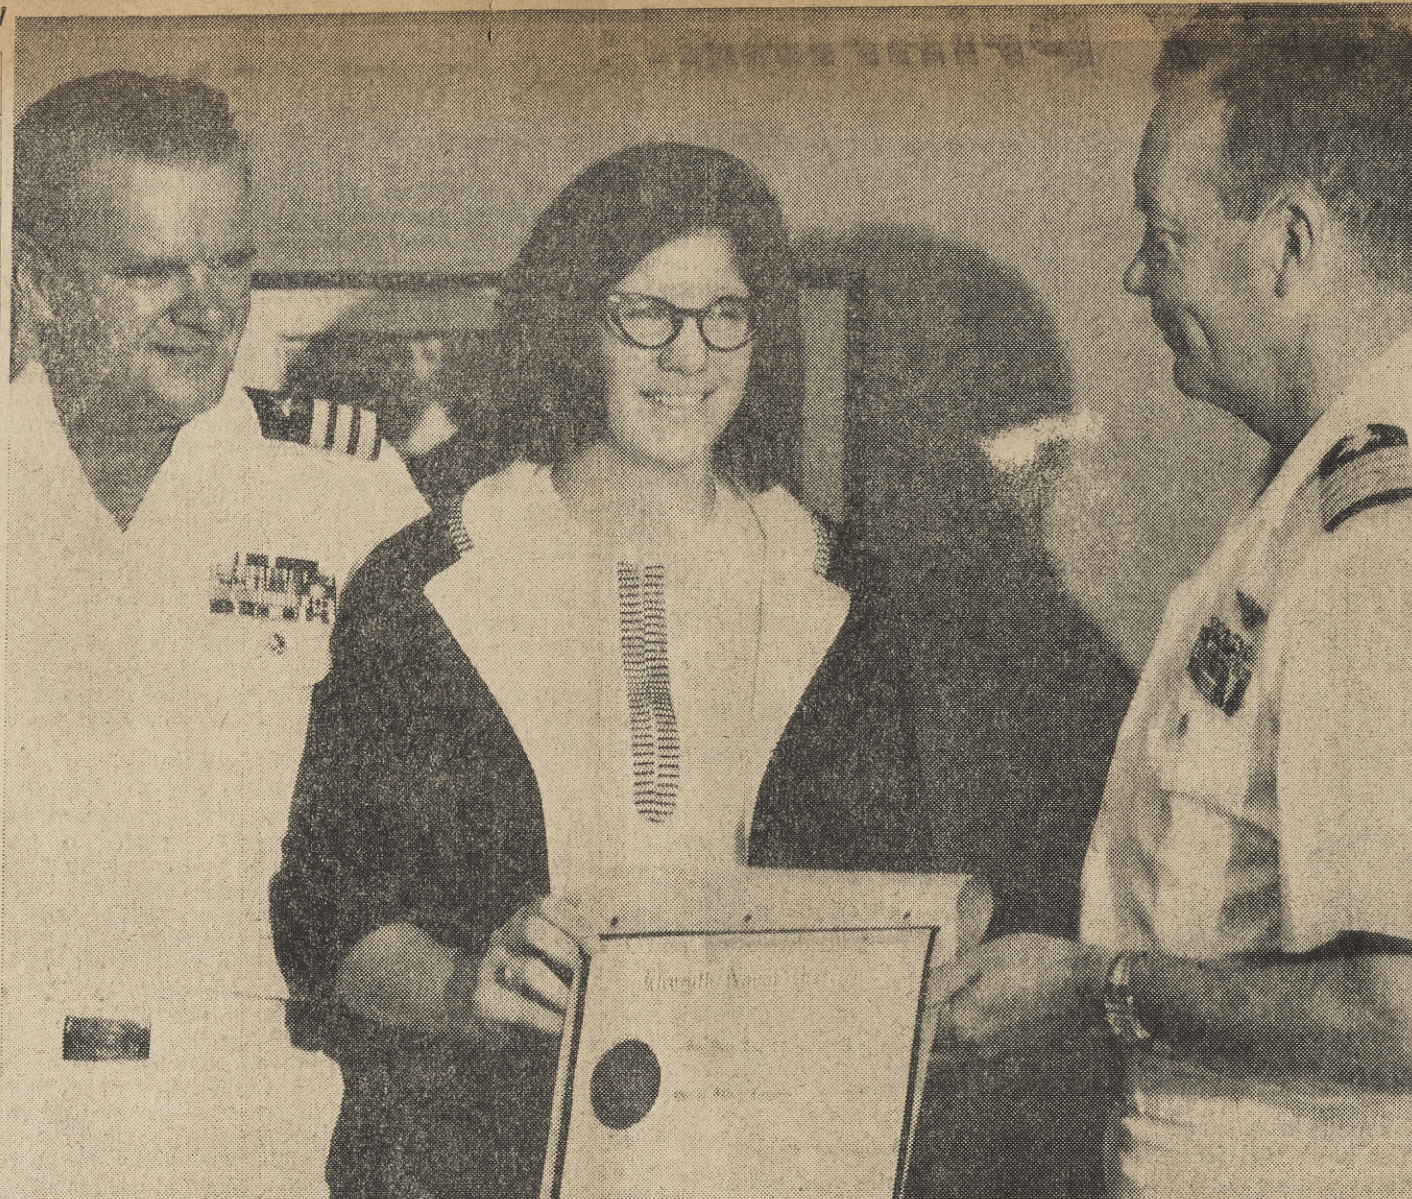

**LLOYD D. ZIMMERMAN**  
Second Lieutenant Lloyd D. Zimmerman, 26, son of Mr. and Mrs. Lloyd E. Zimmerman, 1860 El Dora ave., Lemon Grove, has completed an officer basic course at the Army Armor School, Ft. Knox, Ky.

The nine-week course covers branch training in armor for newly-commissioned officers with special emphasis on duties of a tank platoon leader.

Lt. Zimmerman entered on active duty in Jan. 1964. He is a 1960 graduate of Pontiac (Mich.) Central High School, and was employed by Proctor and Gamble, San Mateo, before entering the Army.

His wife, Edlynn, lives in Napa, Calif.

**S/4 GARY LINTVEDT**  
Army Specialist Four Gary A. Lintvedt, 19, son of Mr. and

**QUALITY:** A Quality Salary Increase was granted to Mrs. Terry A. Johnston from the Naval Amphibious School Coronado. Commanding Officer, Capt. Gerald R. Rian, USN (right) presented her with the Salary Increase Certificate as Education Department Head, Cdr Theodore R. Larson, USN, looks on.

Mrs. Johnston is a 1967 graduate of Mt. Miguel High School. She is the daughter of Mr. and Mrs. William P. Tatman of 8141 Braddock pl., Lemon Grove.

## Kiwaniannes Attend Swim Party

The Spring Valley Kiwanis Club (wives of Kiwanis men) held their annual swim party and pot luck supper at the home of Dr. and Mrs. Tom Webster, 9600 Alto dr., La Mesa, on the evening of Aug. 31.

Special guests were the men of Spring Valley Kiwanis Club. Frank Berger, a past president of the club, and newly-elected Lt. Governor of Division 31, was "hamburger chef" of the evening.

Swimming was at 4:30 p.m. and supper at 7, with a variety of food that would make any Hawaiian envious.

Present for the evening, were: Mr. and Mrs. Frank Merger; Mr. and Mrs. Hoyt Brown; Mr. and Mrs. Robert Divine; Mr. and Mrs. Glenn Munyon; Mr. and Mrs. Frank Rose; Mr. and Mrs. Chet Smith; Mr. and Mrs. Paul Stevenson; Mr. and Mrs. Alex Struthers; Mr. and Mrs. Stewart Taylor; Mr. and Mrs. Tommy Thomas; Mr. and Mrs. Verne Watts; Mr. and Mrs. Roy Williams; Mr. Darrell Walton; Dr. and Mrs. Tom Webster and three children.

**RONALD S. BLASZCYK**  
Radioman Third Class Ronald S. Blaszyk, USN, 25, son of Mr. and Mrs. Stanley C. Blaszyk, 7569 Roosevelt ave., Lemon Grove, is serving aboard the destroyer USS Maddox (DD-731) off the coast of Vietnam.

As a member of the crew, he recently took part in attacking a bridge over a river more than 30 miles north of the DMZ. Together with the heavy cruiser USS Boston, crewmembers of the Maddox fired on enemy coastal defense batteries.

### Kiwanis Program Schedule Announced

Bib Divine, president of Spring Valley Kiwanis Club has announced the Sept. program:

Sept. 4, the "World Tour Girls on Hawaii."

Sept. 11, "San Diego 200th Anniversary," by Harold Glaeser.

Sept. 18, "Color Slides of Rancho Bernardo," by Nelson J. Fry.

Sept. 25, Committee reports. The Club meets each Wednesday at 7 a.m., and Paul Yee is program chairman.

### GOP Women Hear Mike Schaefer Talk

San Diego City Councilman Mike Schaefer, a nominee for the U. S. Congress from the 37th district, will speak to two Republican women's clubs during the first part of September — one of which is in Casa de Oro.

Schaefer, 30, will speak to the San Ysidro Republican Woman's Club Sept. 10 and to the Congress Republican Woman's Club Sept. 16. The San Ysidro meeting will be at noon at the home of Mrs. Arthur Gray, 158 Smythe ave., San Diego.

Schaefer will talk to the Congress Club at 12:30 p.m. at 10085 Casa de Oro blvd., Spring Valley.

Schaefer, now serving his second term as a San Diego councilman, is an attorney.

## Social Security News

This newspaper presents this question and answer column about the Social Security program as a public service to our readers. The questions are those most frequently asked about Social Security. The answers are provided by Sumio Oto, El Cajon Social Security District Manager.

**Q. Who can qualify for disabled widow's benefits under the recent changes to the social security law?**

A. A severely disabled widow between 50 and 62 may qualify if her disability began before her husband's death or within 7 years after his death. The husband must have worked long enough under social security to qualify for benefits.

**Q. How many people are covered by the Social Security Medicare program?**

A. Practically all of the 19½ million people 65 and over in the United States are eligible for hospital insurance, and 18½ million people have signed up for the voluntary medical insurance program.

**Q. There has been much discussion as to Social Security taxes and how much you pay. If I earn \$7800 in 1968, how much do I actually pay the Government for Social Security purposes?**

A. If you earn \$7800 as an employee you will pay 4.4 percent of this amount, or \$342.00. If you earn this much working for yourself you will pay 6.4 percent, or \$499.20.

**Q. How many days of extended care facility care will Medicare pay for?**

A. Up to 100 days during each benefit period. Your hospital insurance will pay for all covered services for the first 20 days of care and all but \$5 daily for the next 80 days.

If you have further ques-

## Law Trapping Mail Filth Says Van Deerlin

More than 500 San Diego families, acting under a new and still relatively little known anti-obscenity law, have been able to stop lurid literature, photos and other material from coming into their homes, reported Rep. Lionel Van Deerlin, D-San Diego.

The Congressman said the figure would be much higher if more people were aware of the law, which requires local post offices to respond to complaints by ordering the senders of "pandering advertisements" to cease mailings to complaining patrons. If a mailer fails to respect such an order within 30 days, the Post Office Department can go to court to force compliance.

Since the law took effect last April 19, Van Deerlin said, 503 complaints have been processed by the San Diego Post Office, and more than 30,000 nationally.

He was told by San Diego postal officials that much of the offensive mail falls in the category of "utterly disgusting, hard core pornography."

One local family with teenage children was bombarded by at least 10 separate dirty mailings before the new law enabled the post office to shut off the flow of filth, Van Deerlin said.

In the past, families receiving such ads often had no recourse because the material, while obviously unwelcome, was also legally mailable.

"The greatest benefit of the new law is that it bestows on postal patrons themselves the power to provide the most effective type of censorship possible — an economic censorship which can and hopefully will drive the purveyors of filth and obscenity into bankruptcy," Van Deerlin said.

He noted that sometimes conflicting court and legislative decisions have clouded with confusion the issue of what is legally obscene.

"As far as the mails are concerned, parents at last can judge what is best for their own children — and know that their judgment will have the force of law," said Van Deerlin, the father of six children.

So far, none of the San Diego parents who've complained to the post office has been bothered by further mailings from the advertisers they considered objectionable.

Students may obtain application forms for work permits at their schools or at the County Department of Education, 6401 Linda Vista rd., San Diego.

Working minors and their employers are to be reminded of the state law regarding work permits for employed youth under 18 years of age.

The law requires work permits for all employed minors under 18 years of age. The minor is responsible for securing the permit, and the employer is required to terminate the employment of any minor for whom he does not have an active permit or for whom an application for a permit has not been made.

All current work permits automatically expire one week following the reopening of school. The expiration date is indicated in the upper right-hand corner of all work permits.

Students may obtain application forms for work permits at their schools or at the County Department of Education, 6401 Linda Vista rd., San Diego.

**Working Permits For Minors Expire As School Opens**

**Accountants To Hear Prexy**

Jack May, 2830 Skyline dr., Lemon Grove, member of the San Diego Chapter of the National Association of Accountants, announced that the San Diego Chapter of the National Association of Accountants will be presented an award on September 11 at the Town and Country Hotel. This award is for finishing in 13th place among the 175 chapters involved in the NAA Chapter Competition for 1967-68. Banners were won only by those completing the year in the top 20 places.

J. Will Lewis, National Vice President of NAA, from Salt Lake City, will make the presentation on behalf of the Association's Board of Directors. Mr. Lewis is a partner in the Salt Lake Office of Elmer Fox and Company, CPAs, and is a member of the Salt Lake Area Chapter.

### Learn Spanish the Easy Way

## Hardison's Telespanish

by James Hardison

If you want to brighten your life with a conversational capability to Spanish, you will have the opportunity to do just that. Two classes for adults will start after next week.

A Spanish class will be held once each week in the Hoover Adult High School (282-7683) beginning the 17th of September. A second class will be held once each week in the North Shores Adult High

School (273-3221) beginning the 19th of September. Both classes begin at 6:30 p.m.

Classes are sponsored by the San Diego City Schools and are directed toward beginners in the language who wish to learn to communicate their ideas in Spanish to their friends, business associates, or domestic servants.

The classes use conversation of simulated situations designed to assist students to better express themselves when they are faced with the actual situations in Spanish speaking environments.

Expressions which appear in this weekly column will be explained in more detail during each class session. Students will be encouraged to practice phrases that may be heard on their home telephone when they dial 276-2762.

A recorded voice will automatically say the words and phrases, pausing for the student to repeat them. Each student may call the telephone number as often as is required until he feels confident with the phrases.

### IMPORTANT EXPRESSIONS

Say "Deme un vaso." (DEH-meh oon VAH-soh) for "Give me a glass." Say "Quiero agua." (kee-EH-roh AHG-wah) for "I want water."

### USEFUL EXPRESSIONS

Say "Tiene frio?" (tee-EH-neh FREE-oh) for "Are you cold?" Say "Un poco." (oon POH-koh) for "A little."

### OTHER EXPRESSIONS

Say "Que quiero?" (keh-kee-THIR-reh) for "What do you want?" "No se." (noh seh) for "I don't know."

### Bowling Balls Stolen

Dorothy B. Goble, 2515 Sweetwater, Spring Valley, reported to San Diego County Sheriff that some one took two bowling balls, bags, and two pair of bowling shoes from her trailer home.

The estimate loss has been set at \$85.

**TO WED:** Mr. and Mrs. Glen D. Hunter of Alhambra, Calif. have announced the engagement of their daughter Deborah to Daniel M. Hacker of 2090 Madera, Lemon Grove.

Miss Hunter is a senior at San Diego State College and belonged to the Chanticon-Tri-Hi-Y.

Hacker is the son of Mr. and Mrs. Daniel P. Hacker of Lemon Grove. He is a senior at San Diego State and is affiliated with Alpha Tau Omega.

He will be commissioned an ensign in the Naval Air Reserve upon graduation. A February wedding date has been set.

## Three Here Win Record Albums

Three local youths won record albums in a contest sponsored by radio station KCBQ by naming the first song officially adopted for use by the San Diego 200th Anniversary Committee.

The winners were among the first five to call in to the radio station and correctly guess the title of the new song, "Come and Play in San Diego," presented to the anniversary committee by the American Oil Company.

Awarded albums by Tom Jones were Debbie Hardacker, 8811 Kelburn ave., Spring Valley; Skip Law, 8040 Longdale st., Lemon Grove; and Sterling Smith, 3715 Federal blvd., San Diego.

The contest was held on the Gary Allyn Show, which airs weekdays from noon to 3 p.m. and Saturdays from 10 a.m. to 2 p.m.

### Saturday Car Wash

The "Young Friends," young people of Spring Valley Friends Community Church, will sponsor a car wash on Saturday, Sept. 7 from 10 a.m. to 3 p.m.

The wash will be at Russ' Chevron Station on Campo rd. in the Casa de Oro area. Contributions will be \$1 per car.

The Rev. Virgil Simpson, newly installed pastor of the church, preached his first sermon on Sept. 1, succeeding Rev. Lewis Swander, who has been called to Oregon.

# New Posts For 7 Principals

There'll be a new look this September in seven La Mesa-Spring Valley schools. In addition to the customary reassignments in the teaching and classified staffs, seven principals have traded posts.

Glenn Murdock, superintendent of schools of the La Mesa-Spring Valley School District, said the reassignment of principals is the first major change in the top school administrative post in some time.

Assignment changes are: LeRoy Armstrong, Maryland Avenue to Fletcher Hills; Fred Burkhardt, Lemon Avenue to Maryland Avenue; Ted Doughty, Kempton Street to La Mesa Elementary; J. Smith Jacobs, La Mesa Elementary to Kempton Street; Glenn Marks, Fletcher Hills to Lemon Avenue; Howard Neff, Brier Patch to Casa de Oro; and Vince Toth, Casa de Oro to Brier Patch.

Other principal assignments which are unchanged are: Donald Barnes, Avondale; Paul Rader, Bancroft; Calvin Rodriguez, Highlands; Robert Davis, La Mesa Dale; Roy Williams, La Presa; Kathryn Bilterman, Murray Manor; Donald Cochenour, Northmont; George Ashton, Rancho; Duane Keiser, Rolando; Noel Burch, Spring Valley Elementary; Pearl McLean, La Mesa Junior High; Garth Hanchett, Parkway Junior High; and Earl Brown, Spring Valley Junior High.

Armstrong, newly assigned to Fletcher Hills School, has

behind him eight years' principalship at Maryland Avenue; one year as a vice principal; and three years as a district teacher.

Previously he was a teacher and principal in Nebraska. During the war years he served with the U. S. Navy in the Pacific and as an instructor in radio school.

In addition to holding membership on many district committees, Armstrong has been active in the La Mesa-Spring Valley Teachers Association, church, Y.M.C.A., Red Cross, and the United Crusade.

His wife and he are noted for the magic shows they have given before many school and civic groups.

He produced a publication, The National Flag, the Pledge and You, and was nominated for San Diego Outstanding Young Man of the Year and Freedoms Foundation awards.

Armstrong earned both his A.B. and M.A. degrees at Colorado State College. He has also attended Scottsbluff College, Nebraska; University of Nebraska; and San Diego State.

Dale and Fletcher Hills Schools.

After serving one-half year as vice principal at Fletcher Hills he was appointed principal of Casa de Oro School. In 1961 he transferred to Lemon Avenue School.

During World War II Burkhardt was assigned intelligence duty in England, France and Germany. He received his B.A. degree from Dartmouth College and his M.A. at San Diego State.

Burkhardt has been active as a member and officer in area professional organizations and is a charter member of the San Diego State College chapter of Phi Delta Kappa. He has also been active in the Angels Unaware program.

In the school district he has served on the gifted child, special programs, and curriculum steering committees.

Dr. J. Smith Jacobs

ed to Kempton Street School, came to the district in 1965 as principal of La Mesa Elementary School. Previously he had been a teacher and principal in Utah.

In Ogden he served as director of pupil personnel and later as superintendent of Utah State Industrial School.

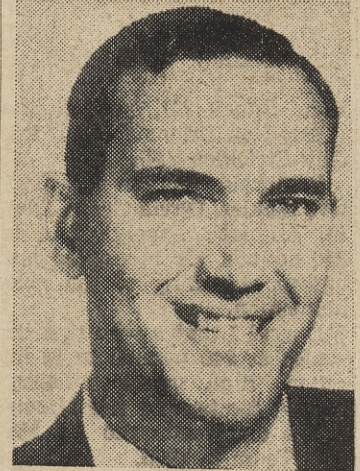

In San Diego County, Jacobs formerly held the post of director of pupil personnel for county schools and was also superintendent of the Carlsbad Elementary School District.

Before returning to La Mesa he had been superintendent of the Fall River (California) Joint Unified School District.

Specializing for a time in curriculum, Jacobs coauthored a county curriculum guide and an individualized reading program—used in Carlsbad. He was a director some years ago of the county's Child Growth and Development program.

Jacobs received his B.A. and M.A. degrees from Brigham Young University and his Ph.D. from the University of Utah.

Marks, who has been assigned as principal of Lemon Avenue School, is a Texan by birth, education and experience.

Ted Doughty

Serving this year as principal of La Mesa Elementary School, Doughty came to the district in 1965 as principal of Kempton Street School. He has a background in curriculum.

In San Diego City Schools Doughty was a demonstration teacher and a teacher consultant in the curriculum department.

He was also a participant last year in a National Science Foundation Cooperative College-School Science program held at San Diego State. He is co-chairman of the district's science-health study council.

After earning his A.B. degree in 1956 at San Diego State Doughty served with the U.S. Army at Ft. Lewis, Washington. Later he returned to San Diego State to receive his M.A. degree.

He is a member of Our Lady of Grace Catholic Church, the Spring Valley Kiwanis, and is active in the Cub Scout program.

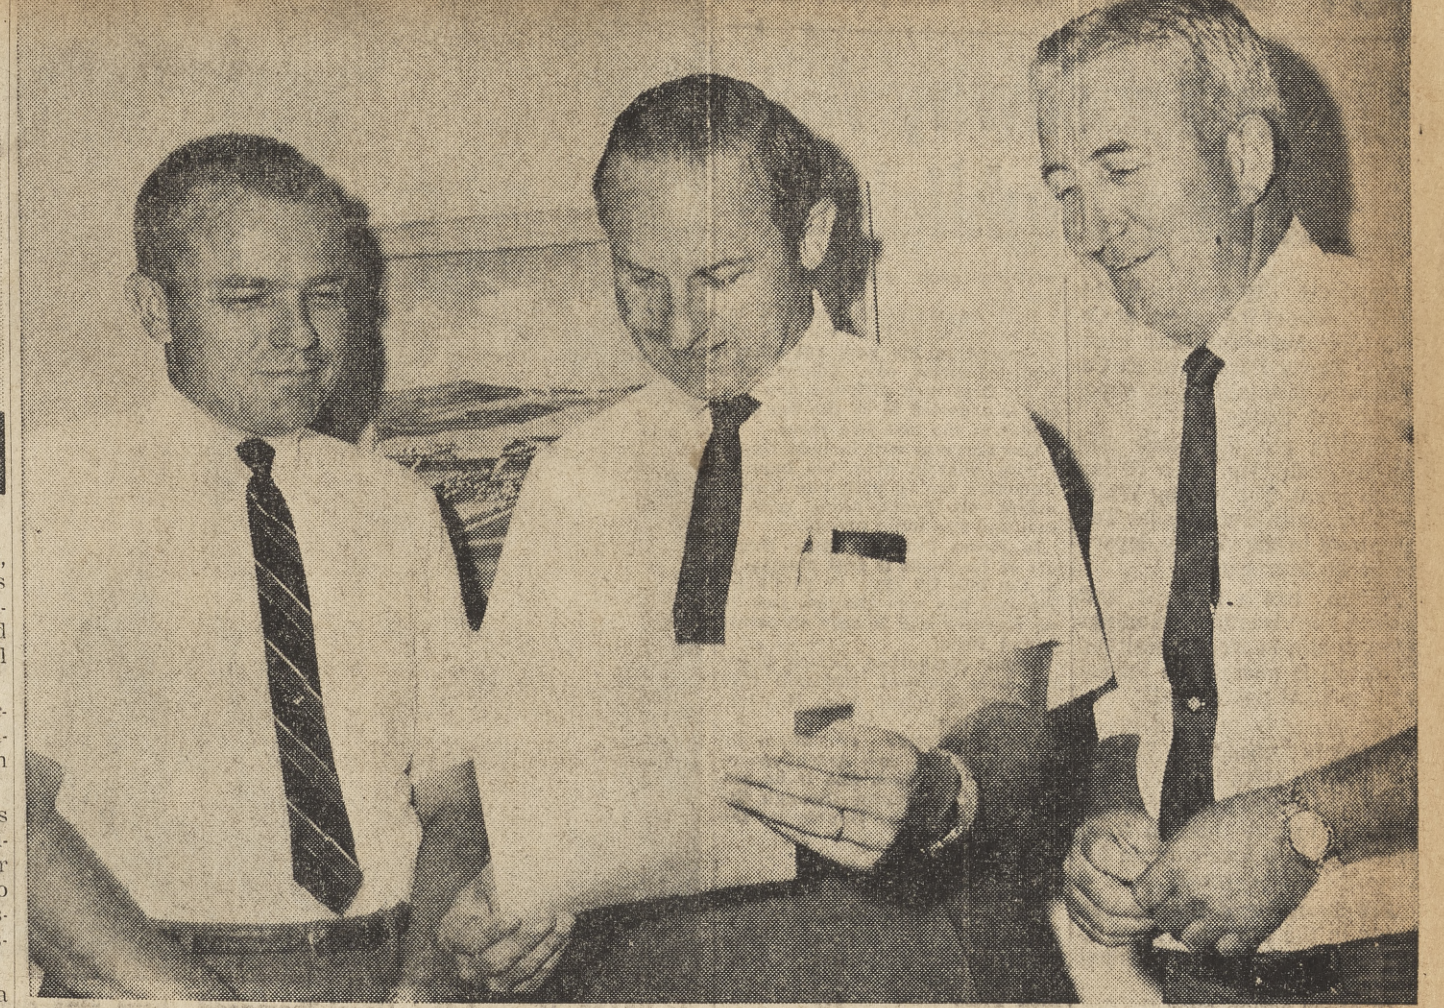

Dr. J. Smith Jacobs, assign-

Dr. Glenn Marks

He came to La Mesa in 1960 as principal of Fletcher Hills School after having served as professor of elementary education at Austin College, Sherman, Texas. Previously he was a teacher and principal in Dallas.

His war experience included responsibility for supervising Puerto Rican soldiers in a pro-

BACK-TO-SCHOOL: Principal Robert Brady (center) is shown as he briefs Bob King, (left) assistant vice principal of students and Bob Devine (right) vice principal, on student registrations at meeting held earlier this week at the Monte Vista High School.

Brady said that school registration will begin today at 8:30 a.m. and continue until 3 p.m. The same schedule will be in effect for Friday registration of high school students.

## Vehicle Code Review Presented To All For Back To School Aid

Schools will be open for the fall semester on Sept. 16.

California Highway Patrol Commissioner H. W. Sullivan suggests that this is an appropriate time for the entire family to review certain sections of the vehicle code.

"There's something there for everyone of kindergarten age or older," he said.

### Family Drivers

The speed limit is 25 miles per hour when passing a school building or school grounds while children are going to or from school during opening or closing hours and

1950.55 he was assistant superintendent of the Cajon Valley Union School District.

Neff has been active in curriculum, the Parent-Teacher Association, and the American Cancer Society. He received his B.A. from the University of Pennsylvania and his M.A. from Teachers College, Columbia University.

Before coming to La Mesa, Toth, assigned this year as principal of Brier Patch School, had taught three years in Pittsburgh. He had also served with the U.S. Army Tank Corps attached to the 6th Armored Division in Europe.

Toth's experience in the district has all been at Casa de Oro School—seven years as a teacher and seven years as principal.

Toth is known to many La Mesans as former head guard at the La Mesa Swimming

during the noon recess period.

The same limit applies when passing any school grounds which are not separated from the highway by a fence at any time the grounds are in use by children and the highway is posted with a "School" warning sign.

The driver of any vehicle which meets or overtakes from either direction any school bus which has stopped to pick up or discharge any children and which is displaying a flashing red light signal visible front and rear must stop immediately before passing the bus and may not proceed until the flashing signal ceases operation.

It is not necessary to stop when passing a stopped school bus at an intersection where traffic is controlled by a traffic officer or official traffic control signal, or when the school bus is in the opposite lanes of a divided highway.

Remember pedestrians have the right of way while crossing the roadway within any marked crosswalk or within any unmarked crosswalk at an intersection.

Follow directions of school crossing guards and junior traffic patrols.

For The Bicycle Riders

Every person riding a bicycle upon a roadway has all the rights and duties applicable to the driver of a vehicle.

Ground Breaking Sees A. F. Moms Attendance

An invitation has been extended to the U.S. Air Force Mothers, flight 22, of the east San Diego county area, from the USO to attend the ground breaking ceremonies for the new San Diego USO today.

Flight 22 has been a steady benefactor to the USO for the past several years and have been awaiting the day they will be working in the newly needed USO for the service-men of the community.

President Sora Morlan, says many will attend the ceremonies on behalf of the flight.

Richard Dean Enlists

The area recruit office of the U. S. Navy said yesterday that Richard H. Deane Jr., of Lemon Grove, had "answered the call to the Colors."

Deane is presently undergoing recruit training at the U. S. Naval Training Center.

Following graduation, Deane will continue his education via additional schooling, or by reporting for duty with the fleet where he will receive "On the Job Training."

under the Vehicle Code, except those provisions which, by their nature, cannot apply.

It is unlawful to operate a bicycle on a roadway unless it is equipped with a brake which will enable the operator to make one braked wheel skid on dry, level, clean pavement.

It is illegal to ride a bicycle equipped with handlebars which raise the operator's hands above the level of his shoulders.

The pedals of the bicycle may not, in the lowest position, be more than 12 inches above the ground.

After darkness, every bicycle on the road must be equipped with a lamp emitting a white light visible from 300 feet in front of the bicycle and with a red reflector on the rear visible from 300 feet to the rear when directly in front of upper beams of automobile headlights.

A lamp emitting a red light visible from 300 feet to the rear may be used in addition to the red reflector.

Bicyclists must ride as near the right side of the roadway, as practicable, exercising care when passing a standing vehicle or one proceeding in the same direction.

It is illegal for a person on a bike to hitch himself to any vehicle on the roadway.

It is illegal to allow anyone to ride on the handlebars.

It is illegal to carry any package or bundle or books, while riding a bicycle, that prevent the bicyclist from keeping at least one hand on the handlebars.

### For School Bus Riders

The school bus driver has full authority over school bus riders in the bus and when the pupils are leaving the bus and being escorted across the street.

No one is allowed to stand while riding a school bus.

### For Young Pedestrians:

Cross the road in crosswalks, Obey the crossing guards, and Obey traffic signals. Red means stop — don't cross. Yellow means wait — don't cross. Green means go!

Guiding Hands Home Gets New Director

The appointment of William T. Gray as Executive Director of the Home of Guiding Hands has been announced by Mr. Allen Frostman, president of the Board of Directors.

Gray who has been Executive Director of the San Diego Mental Health Association for the past two years will assume his duties immediately.

# Cajon Speedway Auto Racing Highlights

Richard White took his fourth win of the season at Cajon Speedway Saturday night after Bucky Peralta of El Cajon was disqualified in super stock car racing.

Peralta got the black flag on the 48th lap of a 50 lap main event. The win by White tied him with track leader Tex Kimbrell in the victory department at four each.

White has a total of 3252 points in league standings placing him in second position. Kimbrell is pacing the league with a 4,128 point total.

Bill Butts is in third place, six points ahead of Peralta with a 3042 point tally.

Peralta could have used the victory to put him in third place and in a four way tie for victories at the track.

Bill Bramley of Spring Valley is in the top ten with a 1,864 point score. He is holding down 10th place.

In other action over the Labor Day weekend, Roger Tilton of Spring Valley moved up to 9th place in the Modifieds with a 120 point total.

Again, this weekend, two nights of racing will be featured at the track. On Friday night the modifieds and Figure 8 cars will take to the track.

On Saturday night, the stock, and super stock cars will open at 8 p.m. with the usual trophy dash.

Phil Patter: Friday will close out modified racing at Cajon Speedway. Saturday night super and limited stock events will

continue each week until October 26.

Carl Adams of El Cajon a local race car builder, will be out to repeat in his new 301 Chevy modified sprint car. Adams won in his first race with the new car and is expected to be the top contender in the last two races.

The program will include figure 8 cars, contain over 100 laps of competitive racing with two trophy dashes, six heats, along with a semi and two main events.

In figure 8 action Mike Heuslein of La Posta is fast closing in on the idle Ed Hale of El Cajon. Heuslein has won the last two 20 lap features and is only 10 points behind Hale.

Lanny Pemberton, Lemon Grove and Lyle Jacquot, National City are only 10 points from Heuslein tied for third.

Larry Peters of Hacienda Heights set a new track record in the trophy dash and if he can keep his car running through the main event will be trouble for the locals.

## Sports Sidelines

50,000 Fans Expected To View Mission Bay Hydroplane Races, September 21-22

San Diego moves into the sports limelight on Saturday and Sunday, Sept. 21-22 when two days of spectacular boat racing gets underway at Mission Bay.

The world's record for both inboard and outboard racing will be up for grabs Sept. 21 as some 120 boats go at it in 12 elimination heats of 10 boats each.

The race, sanctioned by the American Power Boat Association, has a Saturday prize package of \$6,500 to attract the world's top drives and their speedy boats.

Saturday's events will be highlighted by dual "Grand Prix" races. On Sunday, the "Thunderboats, (unlimited hydroplanes) will churn up the waters in the bay.

The hydroplanes will be out for \$25,000 in money and the "San Diego Cup". San Diego has been pegged as having the fastest course in the work word for hydro. Five new world records have been set on the course.

Fans this year will be able to sit near the starting and finishing lines. They have been moved on to the Fiesta Island side of the Bay where fans will be within 30 yards of the lines.

The event, which is expected to attract more than 50,000 watchers, will see speeds in the excess of 200 miles per hour by the hydros.

An interesting note is that some of the jet airlines are airborne when they reach 108 miles per hour.

NATIONAL MEETING: Boy Scout Don Parhis (center) of Ft. Collins, Colorado is shown as he welcomes San Diego County Council Scout executive John Ackermann and (left) and Grossmont District executive Max Elliott (right) at the National Training Conference of Boy Scouts of America at Colorado State University.

The conference, which ran from Aug. 25-30 saw some 4,000 members discuss the long-range program "Boypower '76". The 8-year program established goals from the national level to the local level. There are more than 10,000 adult volunteers in the scouting program in San Diego County.

### Preview Reception Features Mexican Art

A preview reception of major exhibitions of "Mexico: Past and Present" will be held in the Fine Arts Gallery of San Diego, Balboa Park tomorrow from 5:30-7:30 p.m. at the Gallery.

The exhibition which includes 40 photographs by Thomas A. Kelleher depicts the art and architecture of ancient and modern Mexico.

The exhibit may be viewed free of charge to the public beginning Sept. 7.

The reception is for members and their guests of the gallery.

Coffee houses began springing up in London in the early 18th century.

61 YEARS: Mr. and Mrs. Lionel Thorogood of 1728 Dayton rd., Lemon Grove, celebrated their 61st wedding anniversary last week.

The couple, natives of Celveland, Ohio, came to California some 25 years ago. They have nine children, 20 grandchildren and two great-grandchildren.

Thorogood was a bandmaster aboard the USS Vermont during World War I. He had three sons and a daughter who served in World War II.

## Chuck Pryatel Plays Major Role In Monarch's Sports

by Scott McGaugh

There is a man at Monte Vista, who, for the last six years, has been responsible for seeing that every athletic team has been equipped properly and that every Physical Education student has been helped as needed.

Chuck Pryatel, Trainer and Physical Education Attendant for the Monarchy insists upon being called Chuck by everyone. He holds credentials in first aid.

Chuck is the man who comes back to school while most Monarchs are still at the beach. He returns to equip the football players around Aug. 26 each year.

Football takes up most of his time. His school hours during the football season range from 7 a.m. to 5:30 p.m. on the average.

Chuck is a man of six foot four inch stature. He has seen some surprising things while at Monte Vista. He swears that just a few weeks ago a Freshman who came to get his football gear put on his helmet backwards in all seriousness.

During his six years at the Monarchy, he had this to say of all the boys that he has met: "I'm close to all of the teams. Every year they're different but I have no preference."

Chuck didn't go to college. He joined the Navy and is now retired. He is married with

four children.

The sports outlook Chuck sees it this way: "I feel that with the Juniors we have this year, we look the best yet, barring any injuries to keep people."

Chuck has been working at Monte Vista now for quite a while and the Senior Athletes of last year were the first to commend him for his efforts with a special award. He deserves it.

The trainer will have his hands full as students return to school on Sept. 16. Football season is already in action, basketball, track and baseball all require advance work on the part of the trainer.

Chuck said that he is looking forward to his duties as usual.

## Padre Ticket Prices Listed

Baseball fans will have their choice of four distinct locations in San Diego Stadium for the 1969 National League season when they purchase season tickets to all 81 San Diego Padres home games.

The Padres will be making their debut in the majors next year as a member of the senior circuit which also includes Los Angeles, San Francisco, Chicago Cubs, Atlanta, Houston, New York Mets, Cincinnati, Philadelphia, Pittsburgh, St. Louis and Montreal.

Joe Ziegler, Director of Season Ticket Operations for the major leagues Padres and assistant to club president E. J. "Buzze" Bavasi, announced the season and single game prices for next year.

Single seats are said by Bavasi to be among the lowest in cost in the league.

There will be 14,500 general admission seats at \$1.50; 11,200 loge seats at \$2.50; 15,800 plaza seats and 6,700 field box seats at \$3.50, and 1,800 club press box seats at \$5.

"Four locations are available on a season basis," said Ziegler. "The field level prices have been set at \$265 per season box seat as have the plaza level box seats. There will be 6,700 field seats for those who want to be in the center of the action and 15,800 plaza level seats for those who desire to be up higher but not too far away to enjoy the action."

Also available on a season basis are loge level box seats at \$190 per seat and club press seats at \$380 a season ticket.

"The loge level seats are moderately priced and although higher in elevation still afford a perfect view of the game," said Ziegler. "Access is by ramp, escalator or elevator."

Upper level seats will not be sold on a season basis.

### House Materials Theft

Joe Reeder, 1551 Camino Del Rio, San Diego told sheriff's deputies that someone took three barrels of house-coating materials from 7407 Broadway, Lemon Grove. The loss has been set at \$300.

The case is under investigation by the law agency.

Chile is the world's largest producer of copper.

## Surfers Meet Tonight

A special meeting of all surfers involved in competition is scheduled for tonight starting at 7:30 p.m. at the Santa Clara Recreation Center in Mission Beach.

A frank discussion of contest judging, selection of judges, election of Western Surfing Association officials, the forthcoming Ocean Beach and Pacific Beach surfing events, as well as the future of surfing in San Diego will be held.

Surfers from all over San Diego, as well as any part of California, are invited to attend. Doug Smith, San Diego City Surfing Coordinator, will preside.

The meeting is the result of a previous one where surfers attending evidenced considerable dissatisfaction with the status of surfing competition in California.

## Tennis Tourney September 16

Entries will close on Monday, Sept. 16 for the 16th annual San Diego Industrial Tennis Tournament to be held on Sept. 21, 22, 28 and 29 at Morley Field in Balboa Park.

The tourney, conducted by the San Diego Recreation Department, is open only to employees of firms holding membership in the San Diego Industrial Recreation Council.

Divisions will be men's singles and doubles. Last year's winners, expected to compete again, are Tad Yamaguchi of General Atomic in singles and the team of Yamaguchi and Jack Douglass in doubles.

## Golf Match Opens Sunday

Pal's Monthly Golf Tournament, sponsored by Pal's Cafe of Lemon Grove will be held Sunday at the Cottonwood Country Club starting at 8 a.m.

The tournament will be played on the Monte Vista course. No handicap is required. All scoring will be based on the Calloway Scoring system.

All area golfers are invited to participate in the match. More than \$125 in prizes will be up for grabs. An entrance fee of \$7.50 is required. It includes greens fees.

Persons wishing to enter, should register at Pal's at 3521 Imperial in Lemon Grove.

## Griffins Scrimmage Saturday With Orange Coast College

Grossmont College will go into battle on Saturday afternoon at 1 p.m. as they take on Orange Coast College at the Orange Coast field in a scrimmage football game.

Head coach Clint Whitfield will take his players out for a tough afternoon of football. H has been conducting double practice sessions throughout the week in preparation of their Sept. 21 opener with San Diego City College.

Whitfield said that enthusiasm is running high with his team. He has been emphasizing blocking, tackling and moving the ball at the practices.

Grossmont College has nine returning lettermen. They are Ralph Baker (TE), Tim Egar (DH), Luck Fleming (WB), Mike Mallow (S), Gary Medina (T), Bob Schuldies (G), Bob Shook (G), Lee Stalker (DB), Ken Stinnett (LB), and Guy Stricklen (E).

Whitfield has two impressive tackles. David Gross, from St. Augustine, weighed in at 250 pounds. He has speed and agility according to the head helmsman.

Darryl Lasater who tips the scales at 240 pounds in his other high prospect Darryl played football in the Marine Corps and made the All Marine Team in 1965.

Quarterback position of the

club is still up for grabs. Richard Riker, a 1968 graduate of El Capitan and Leroy Woods, a 1967 grad from El Cajon are battling it out for the top spot.

Woods, played ball at Northern Arizona University last year as their third string quarterback.

Running Backs for the Griffins are Walter Weir from Berkeley, Skip Milliron, Dave Strom from Mt. Miguel, Bart

Williamson of Helix and Gary Honkanen from Santana.

Area players on the football roster include Max Flack, Mike Mallow, Tom Peterman, Mike Vidal and Bart Williamson all of Helix High School.

Representing Monte Vista are Reg Hightwoer, Howard Kent II, Louis Oriol and Bob Shook. Dave Strom is the only student on the team who is a Mt. Miguel High School graduate.

## POP WARNER FOOTBALL TO DRAW 200 YOUNGSTERS

by Mitch Gegax

Sept. 14 marks the season opening for the Los Toros Football Club of Lemon Grove and Spring Valley. Since Aug. 1 these boys have been hard at work learning the fundamentals of conditioning, tackling, blocking, and running.

Pop Warner football in the Spring Valley-Lemon Grove area will support six teams, and as usual boys will receive team assignments based on weight and age.

"Kid football teaches discipline and dedication," said Head Coach Shorty Banister, "and this is often lacking in the boys' lives." Banister who will be the chief mentor of the senior division (Midgets) has compiled a staggering 68-7 record through his years as a Pop Warner coach.

"Our boys stay out of trouble because we keep them busy," said Bud Taylor, Pop Warner coaching veteran. Taylor, one of the three coaches of the intermediate teams (Pee Wee Division), is starting his

ninth year as a football coach. The area's football program for 9 to 13 year old boys started Aug. 1 with two weeks of physical conditioning under the critical eye of Shorty Banister and his staff of assistants. "I discourage boys from playing if they don't go through the two weeks of calisthenics," says Banister. "Boys in shape don't get hurt. I don't want boys to get hurt, so I demand conditioning."

The six teams being fielded are one Midget team, three Pee Wee teams, and two Junior Pee Wees. The other Pee Wee coaches are Bill Smith and Bud Payn. The Junior Pee Wee coaches are Vern Torres and Ray Alcaraz.

All home games for the six area Pop Warner teams will be played at the Mt. Miguel football practice field. A complete schedule will be reported later.

## Padre Owner Named To Hall of Fame

Three owners of the San Diego Padres and General Manager Eddie Leishman have been named to the San Diego Baseball Hall of Fame.

Mil Chipp, chairman of the Hall of Fame Committee, said that the late H. W. (Bill) Lane, William Starr and C. Anhoit Smith, along with Leishman, will be inducted into the Hall of Fame during ceremonies preceding the Annual Oldtimers Game on Sunday afternoon.

The Padres will be playing their final game in the Pacific Coast League following the Oldtimers game when they meet Phoenix. Game time is 1 p.m.

Lane, who was owner of the Padres in 1936 when the franchise was moved here from Hollywood, died in 1938 and the Lane Estate operated the club through 1945 when a former San Diego Padre player, Bill Starr, purchased the franchise rights.

Starr continued as owner until 1956 when the franchise was purchased by Smith, who is the present owner.

Under Smith's dynamic leadership the Padres moved from Lane Field to beautiful Westgate Park in Mission Valley which was home until this year when the club began playing in the new San Diego Stadium.

The club enjoyed success under Smith's ownership and finished in the first division 10 times and won three championships.

One of the major moves made by Smith was the hiring of Eddie Leishman as General Manager in 1960. The Padres won the PCL championship in 1962, 1964 and 1967.

The Grossmont Union High School District reserves the right to reject any or all bids, to accept or reject any or all bids, to waive any irregularities or informalities in the bids or in the bidding.

Preference will be made in the award for American and California made supplies, pursuant to Sections 4300 to 4334, inclusive, Government Code.

NOTICE IS HEREBY GIVEN that on Monday, the 16th day of September, 1968, at 11:00 a.m., in the chamber of the Board of Supervisors of the County of San Diego, Room 510 County Administration Center, 1600 Pacific Highway, San Diego, California, a hearing will be held on a petition filed with this Board on August 5, 1968, proposing the annexation of the hereinafter described territory to the Lemon Grove Lighting District and the establishment of a temporary zone with respect to said territory. At the hearing, or at any time to which it is continued, this Board shall consider the petition and any protests of interested parties which may be filed against it or against the annexation of any territory to the district. The text of said petition is as follows:

Fisher Annexation  
Document No. 404093  
TO: Board of Supervisors  
San Diego County, California

The undersigned petitioners hereby respectfully request that all of the territory described in Exhibit A hereto attached and by this reference incorporated herein (hereinafter referred to as the Territory) be annexed to the Lemon Grove Lighting District

## LEGAL NOTICES

# Around Spring Valley

## Concern Develops As School Opens

By Tommy Thomas

With schools opening Sept. 16 in Spring Valley, as well as in other areas, we are concerned about the safety of our school children.

A special caution should be observed by both bicycle riders (youngsters) and motorists.

For the youngsters planning to ride their bikes to and from school, they are urged to observe all the rules and regulations of safe bike operation.

If not too well versed on the subject, it might be a good idea to get a copy of bicycle safety rules from one of the bicycle shops in the area, the Automobile Club or a law enforcement agency.

To begin with, a bicycle rider must observe nearly all the same laws that are observed by a motorist. He must ride down the side of the street with the traffic and give all the correct signals, which are given by a motorist.

And more; he should not have an extra passenger on the bicycle, unless it is a tandem outfit. AND, never cut up or show off while riding a bike on a public street.

For the motorist, he must be careful of the many youngsters who will be riding bicycles to and from school, and those who are crossing and recrossing the streets.

Be especially careful to observe the flashing red lights on the school buses as they are loading and unloading passengers. . . the red lights mean STOP.

We are indebted to Alex Struthers and the Otay-La Presa Water District (and R. E. Pethick of S.V.) for a recent picture in the Aug.-Sept. issue of "Pipeline," the Water District's publication.

The picture was of the old railroad engine which ran on the historical La Presa Line. A real sharp picture, taken from the collection of Mrs. P. C. Yenawine, it showed four of the crew of the engine, and identified two of the crew: Fireman P. C. Yenawine and Engineer Guy Roberts.

In back of the engine was shown a portion of the old La Presa depot. The depot's use

ended some time after 1900, the picture cutline stated, when it was converted to a hay barn.

It was later made into a chicken coop, and the coop and chicken were lost in the 1916 flood, when the coop was located in Sunnyside.

It was pointed out that the site of the old La Presa Depot was Kempton and San Carlos st., here in Spring Valley. The roadbed for the trains came up Spring Canyon.

It is said some traces of the roadbed are still visible in Spring Canyon. One modern use for the abandoned roadbed is for the gravity flow sewer line of the Spring Valley Sanitation District.

This newspaper salutes Mrs. Louise Warren, owner and manager of War-Broadway, as Lemon Grove Merchant of the Week.

Mrs. Warren has been in business in Lemon Grove for 9 years. She has been an interior decorator for some 20 years.

The local merchant is the mother of two children. They are, Sallye who attends Grossmont College, and David, who is a student at Spring Valley Junior High.

The furniture store offers a complete line of Spanish styles along with early American, Provincial and Contemporary classes of furniture and lamps.

## Grass Fire Set By Skyrocket

A skyrocket, its source not established, was responsible for a spectacular grass fire Monday night in the 7400 block of Mt. Vernon st. of Lemon Grove, the Fire Department reported.

Blaze and heavy smoke shortly after 9 p.m. attracted wide neighborhood attention but there was no structure damage.

A fire of undetermined origin burned a two-part shed and a fence at 2520 Bonita st. at 6 a.m. Tuesday.

The house at that address is occupied by the R. J. Collette family.

Department officials are investigating the cause of the fire.

Aesop did not write his fables but recited them and they have been handed down for generations.

## THE DIMMER VIEW (Cont.)

extended from the people to the nation and the nation to the people."

Said a businessman: "Freedom is the right of an individual or group to do what they want, when they want, and where they want, as long as it is moral and does not restrict or infringe upon similar rights of others."

A pretty little secretary said: "Freedom is being permitted to express all thoughts and feeling when, and in the manner, desired; coming and going from places of choice at the time of choice."

A rather terse definition was offered. "Freedom is the right to live, love and worship without restraint."

A professional man said: "... the right of self determination for the majority."

An attractive college coed defined it thusly: "To me, freedom is when I can express myself thru words, actions, deeds, etc., and be satisfied and stimulated with what I've done without harming others. It's a sort of inner peace. Of course there are limits set on freedom by society, the people, and I realize and respect these boundaries. It is only harmful when there is too little or too much freedom. When the detrimental aspects of freedom outweigh the good is when the concept of the idea has passed the limit."

Using these definitions as criteria, it would suggest that some people want freedom without restraints of any kind and some want controls.

It is interesting to note that those who want no controls look inward - assessing the effect of freedom on themselves.

Those who qualify the meaning of freedom appear the more thoughtful for they are asking themselves what effect their freedom will have on those who do not see freedom in exactly the same light.

In any event, it is a good topic for an intelligent group to use for discussion some rainy night as the police patrol the neighborhood assuring that the discussion can be completed without distraction from house-breakers or street demonstrations.

## Five Race For 3 Posts At Hospital

Residents of the Grossmont Hospital District will be able to pick and choose from five candidates to fill three posts on the hospital board on Nov. 5.

Voters will also have the opportunity to vote on a six million dollar bond issue which the hospital will under go further expansion - if the issue carries.

George Hurst, a young El Cajon attorney, a newcomer to political jurisdiction races, is running. Running also is Virgil Steffen, of 4058 Roger rd., Spring Valley, who was defeated in a race for the same post in 1966.

In the race, too, are incumbent Jack Atkinson, Forace Boyd, and Dr. Hazen Streit. Hurst is past president of the El Cajon Chamber of Commerce and the El Cajon Jaycees. He practices law in El Cajon.

Steffen, 54, an insurance broker, also serves on the Spring Valley Fire District board.

Streit, a retired dentist, operates an auto agency in La Mesa. He was appointed to the board in 1965.

Boyd, a retired realtor, who lives in Lakeside, is chairman of the board this year. He has served since 1952.

Atkinson, a tire dealer, who lives in El Cajon, is serving the board for his eleventh year.

## La Mesa Booming?

La Mesa has become a boom town!

Retail sales, according to Albert Marshall, La Mesa Chamber of Commerce president, were up 21 per cent for the first quarter of 1968 over the same period a year ago.

With a taxable sales total of \$23,563,000, La Mesa became the top sales producer among small cities in San Diego County - second only to San Diego City.

First quarter sales of 1967 were \$19,484,000.

Marshall predicted that an all-time high of \$100,000,000 would be reached this year if present trends continue. Business improvement over the entire area including shopping centers is responsible for the increase, Marshall said.

He noted that some small main street businesses, in the doldrums for the past few years, have reported increases greater than the average.

## Doctor's Son In Hospital

The son of a Lemon Grove physician-surgeon was reported to be "still in a serious condition" at Mt. Helix General Hospital.

Stephen Kenaga, son of Dr. James Kenaga, of 7600 Pacific st., Lemon Grove, was hit by an auto while he was riding his bike near San Altos shopping center Aug. 23.

## Licensed To Wed

SAN DIEGO (CNA) - Marriage licenses have been issued to these couples:

Jon DeFore, 24, Spring Valley, and Jeneatte Donias, 21, San Diego;

Gary Moen, 25, Spring Valley, and Georgia Thornton, 23, San Diego;

Sam Naley, 19, Lemon Grove, and Diana Dowdy, 18, La Mesa;

Darrell Coniser, 25, San Diego, and Abigail Boyle, 16, Spring Valley;

Robert Loveland, 25, Lemon Grove, and Barbara Maynard, 18, San Diego;

John Heilbron, 74, Spring Valley, and Gertrude Cohen, 56, San Diego;

David Zongyalar, 19, Ocean-side, and Anita Engelstad, 18, Spring Valley;

William Grey, 22, El Cajon, and Mary Mohr, 17, Spring Valley, and

Gary Curl, 30, Spring Valley, and Paula McKean, 24, San Diego.

## Carpet Tools Stolen

The United Rent-All, of 6873 Federal Blvd., Lemon Grove, told sheriff's officials that someone had taken some carpet laying tools from his business space during the day recently.

Estimated loss has been set at \$75.

## Handicapped Children Make Zoo School Visit

A visit to the Zoo is always an occasion of pleasure for any child. This was especially so for children in Paul Curran's summer school class for the trainable mentally retarded at Lemon Avenue School.

Children from La Mesa, Spring Valley, Lemon Grove and El Cajon were enrolled in the class. A week-long visit to the San Diego Zoo climaxed the youngsters' summer program.

They were offered a special course conducted by Miss P. Kline, Zoo educator, in cooperation with the La Mesa Spring Valley School District.

Camp Fire Girls' Horizon Club, an organization for girls interested in community service, provided volunteer help for the program.

Curran said the instructor was especially tailored by Miss Kline of Lemon Grove to satisfy the needs of handicapped children. Class began each day when children were told about the identification, habits and other characteristics of specific animals.

Live specimens were brought into the classroom at the Zoo's Education Center.

"It was no small thrill for the teachers to observe children overcoming their fear of such things as snakes," Curran said. "In the relaxed class setting each child eagerly awaited his turn to place 'George' about his shoulders."

'George' is a live California boa snake.

Also scheduled was a daily visit to other areas of the Zoo. Children's Zoo was a favorite spot where children enjoyed riding the tortoise.

Curran said the children were brought one morning on to the seal show stage where trainer Benny Kirkbridge gave the class some pointers about seals. The visit was highlighted with each child receiving a wet kiss from a seal named "Nipper."

Charles Shaw, curator of snakes, and one who is familiar to children because of his appearances on the television program, "Zoorama," also visited the class, as did Dr. George Pournelle, curator of

mammals. Children daily reviewed the morning's activity. Activities included art work, writing, word recognition, oral reporting and a story time.

Miss Kline said, "The effectiveness of the experience for mentally handicapped children is best reflected in a comment made by a mother of one of the girls who inquired of Mr. Curran, 'How in the world did you ever get her near the animals?'"

She's been so afraid of them we've never been able to get her through the Zoo entrance." A 16mm soundfilm recording the highlights of the summer school program will be available for viewing in the fall, Miss Kline said.

## New Mink For Lucky Housewife

There's a gag about a woman who showed up in a new mink coat.

They said she got it the hard way - from her husband.

A Lemon Grove woman changed all that. She got one the easy way. She won it.

The woman, Mrs. Clarence Heidick, of 2612 Nida way, together with an Escondido woman, won mink stoles in a major gasoline firm's contest.

An El Cajon man won an auto in the same contest.

Mrs. Heidick said her son Gary entered her name in the contest at a local station.

When they informed her by phone that she had won, Mrs. Heidick said she mistook the call for one that would tell her that her daughter had delivered a baby. The daughter, Mrs. Marina Elletta Snow was to deliver a daughter two days later.

"It was the first thing I ever won," Mrs. Heidick said. Her new granddaughter lives at 2617 Citronella, Lemon Grove.

WED: Miss Leslie Lorraine Southwick of Lemon Grove, daughter of Mr. and Mrs. James F. Southwick, became the bride of Thomas L. Lawrence on Saturday in the Chapel of the Mission Hills Congregational Church.

The bridegroom is the son of Mr. and Mrs. Cecil Lawrence of Marion, Illinois. The former Miss Southwick is a graduate of Mt. Miguel High School and is a Junior at San Diego State College. The bridegroom received his schooling in Illinois and will continue his studies at City College.

## Gomez Named As New Padre Helmsman

Padre General Manager Ed die Leishman has announced that Preston Gomez will manage the San Diego Padres in their 1969 National League debut season.

Gomez will combine more than 20 years experience as a player, coach and manager. He has been with the Los Angeles Dodgers, serving as a coach since 1965.

## Four More School Teachers Retire From LM-SV District

Four additional retirements have been announced by Glenn E. Murdock, superintendent of schools, La Mesa-Spring Valley School District.

They are: Sam Miles, director of the summer school and Head Start programs; Mrs. Ethel Hawks, home tutor; Mrs. Miriam McNeil, third grade teacher at Rolando School; and Mrs. Leona Boord, teacher of the trainable mentally retarded children at Lemon Avenue School.

Miles, who retired this summer, has served as a district administrator since 1953.

He was appointed that year as principal of Fletcher Hills School after having been elementary school principal in Los Alamos, New Mexico, for six years.

In September, 1961, he was reassigned as principal of the new Rancho School in Spring

Mrs. Ethel Hawks

mer principal of the San Diego City Schools.

They have two sons and a daughter.

Mrs. McNeil, a native of Illinois, came to the La Mesa-Spring Valley School District in 1952 and was assigned to La Mesa Dale School where for eight years she taught the second and third grades.

In 1931 she transferred to Rolando where she remained until her retirement.

Prior to coming to La Mesa, Mrs. McNeil taught Spanish and history for four years in Onawa, Iowa, and then taught four more years in Sheridan, Wyoming.

She received her B.E. degree from San Diego State and also attended Iowa State Teachers College and California Western University. She was enrolled in the Child Study Program for two years.

Mrs. Boord came to the District in January 1962 to be assigned at Lemon Avenue School as a teacher of the trainable mentally retarded, a position she held until her recent retirement.

Previously, Mrs. Boord taught for 17 years variously at St.

## Grove Set For Cleanup

Cleanup day in Lemon Grove will be September 28 but the whole week starting September 22 will be Clean Up Week.

The Lemon Grove Chamber of Commerce decided Tuesday.

Chamber President Frank Shughrue said that he will appoint two committees - one for each side of Imperial to scout the area to assess the amount of cleaning up to be done.

San Pernicano, executive member of the County Anti-Litter Committee, will serve as coordinator. Pernicano is a board member of the Chamber and a past president.

Supervisor Bob Dent said earlier that County equipment would be available for picking up accumulated refuse.

In a similar project several years ago several truckloads of trash were picked up and transported to the dump by Thomas Disposol and County personnel.

Shughrue said he will announce clean-up committee members after he has discussed it with them.

## Garbage Is Going, Going, Gone!

One of the marks of a truly carefree modern household is an electric garbage disposer. It puts a final end to foul-smelling garbage.

For most people garbage disposal is a private affair, not discussed with friends and neighbors, except during periods of emergency — such as a strike by sanitation workers. Under normal conditions, it's your own business whether you put your food waste in coated garbage bags, or wrap it in newspaper, so long as the covering is tight, to reduce odors and discourage dogs and insects, pending arrival of the garbage truck.

Unpleasant as it is, garbage is something every family must cope with — so why talk about it — unless your family is among the fortunate ones whose homes are equipped with electric food waste disposers. Then, you can talk about garbage as a thing of the past!

With this sturdy appliance under the sink, food waste, peelings and rinds can be scraped into the sink opening, where they are reduced to a pulp, mixed with water and flushed away. Each year nearly 1.5 million new families acquire electric food

waste disposers, and join the happy chorus which can sing "Good riddance to garbage."

An electric food waste disposer is often found as standard equipment in total electric Gold Medallion Homes. Because of its fast-growing popularity, increasing numbers of home builders are choosing to install the food waste disposers as one of the four major electric appliances which are required as a minimum by Gold Medallion Home standards.

### Remodeling, A Sound Financial Investment

It costs money to improve or enlarge a home. But so does anything else — and nothing can top home improvement for a sound investment in the future. In addition to the eventual financial profit, you are also immediately rewarded with the happiness and added comfort for your family.

Make an odor-free slicing board for the kitchen from Masonite 1/4" Tempered Presdwood.

## FUN-LOVING CARPETING

Carpet in a vacation home? Why not? It's meant to be a home for taking it easy, isn't it?

Most persons will grant that carpeting makes a home more pleasant to live in, but with the advent of modern man-made fibers, carpeting has become more practical to live with as well. And this makes carpeting as much at home in a beach shack or mountain hut as in a city apartment or suburban split-level.

These fibers, such as continuous filament Cumuloft nylon or Acrilan acrylic, make tough, durable carpet yarns that will withstand the most rugged wear and tear.

What's more, they clean easily as well. This does away with laborious and time-consuming mopping, waxing and buffing. The vacuum cleaner will take care of most of the work. They

resist moisture absorption, therefore most stains can be cleaned up easily with the proper procedure. This leaves more time to enjoy that vacation.

The beauty and comfort of carpeting will add greatly to the enjoyment of leisure hours. An installation of wall-to-wall carpeting gives continuity to floor space in a home and makes small rooms seem larger — an important factor in small cottages. The endless variety of patterns, textures, and colors available in carpeting today will enliven leisure hours. And carpeting's ability to muffle sound adds an important measure of peace and serenity.

But what if you don't have a vacation home? Why not have carpet or a rug in your camping tent or trailer? Vacation is a time for pampering yourself. Carpet can help you do it.

## Family Fun Takes To The Water With New Swimming Pool Sports

New family sports and games are popular in the backyard swimming pool. They draw kids of all ages together without the usual dry-land squabbles, according to the George Bonfields of Miami, Fla., whose 12 children are all gung-ho swimmers.

A raft of new family sports activities is developing among swimming pool homes across the country.

There's the wet-set version of basketball, called aqua-ball, which kids and grown-ups of every size can enjoy on an equal "footing" (make that "finning") regardless of the length of their legs.

Volleyball, football, baseball, jai alai, badminton, polo, horse-shoes, and tug-of-war all are creating a big splash in their new versions.

One of the most spectacular of the new swimming pool games is scatterball, according to the National Swimming Pool Institute. In scatterball, 12 four-inch plastic balls are hurled into the air from a floating net activated by strong rubber strips, and players scramble to recover them.

Among new play accessories are oversize "diving coins" that don't corrode; magnet-hooked fishing pools used to land metal jar-ring fish, and eight-inch square plastic dice.

In the water, children of all ages seem to get along better, parents of large families find. The reason? Each child can find his own active fun or join in group play for just the length of time he wants to. One set of experienced parents, the George Bonfields of Miami, Fla., who shepherd a brood of 12 ranging from 4½ to 21 years of age, have found their pool waterproofs family togetherness. A slide and a dozen or so of floating handballs give the family everything it needs to improvise water games and healthful exercise. "A swimming pool is better than a full-time maid for families who have as many youngsters as we do," Mrs. Bonfield concludes.

### A GOOD HOUSEKEEPING GUIDE TO PEST CONTROL

■ Destructive and annoying insects in the home can be controlled if proper precautions and steps are taken. The Good Housekeeping Bureau, in cooperation with the U.S. Department of Agriculture, has prepared a chart of the most common insects infesting homes in the United States and their control methods. (In certain cases, such as with mosquitoes, community-wide action may be necessary to control an infestation.)

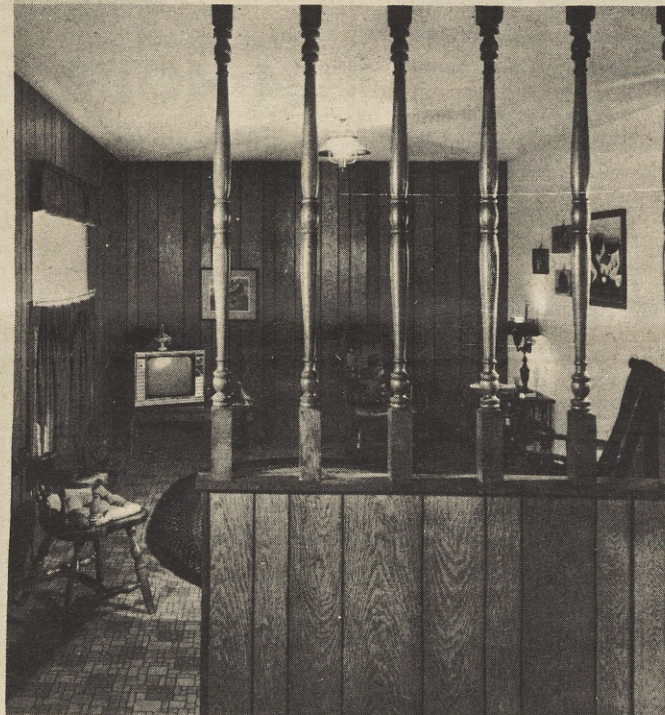

Insecticides improperly used may cause injury to man and animals, including pets. Insecticides should be stored and used with great care. Recommendations of this chart and the labels on commercially prepared insecticides should be carefully followed.

In the chart, only the essential ingredient effective for insect control has been listed (e.g., 5% DDT, 2% chlordane, 0.5% lindane, etc.). If these ingredients are present, they will be on the label of the insecticide container. Also check the label to determine that the particular use for which you want the insecticide is listed. This chart, it should be noted, does not cover such wood-destroying insects as termites. The Good Housekeeping Bureau believes that control of these insects can be adequately handled only by professionals. Drawings in the chart are for identification and are not always actual size. In particular, those of the gnat, fruit fly and flea are greatly enlarged.

FOOD-VISITING INSECTS	TYPE OF DAMAGE	METHOD OF CONTROL
<b>HOUSEFLY</b> 	Disease carrier (typhoid, dysentery, etc.); annoyance.	Eliminate breeding places when possible. Keep garbage and other refuse tightly covered and dispose of it frequently. Provide adequate screening, tight-fitting door and window frames. Paint screens, windowsills, doorsills, and other areas where flies congregate, with either 2% malathion or 1 to 2% ronnel. (Some fly strains have become "DDT resistant," so DDT may be ineffective.) Use either 0.5% dichlorvos, 2 to 4% malathion, 0.4% ronnel or 0.1 to 0.25% pyrethrins plus 1 to 2% synergist (usually piperonyl butoxide) as space sprays to kill flies that do get in.
<b>COCKROACH</b> 	Disease carrier; contaminates food, destroys book bindings, paper, and even starched clothing.	Use 0.5% dieldrin or 2 to 3% chlordane in liquid form along baseboards and around pipes, risers and surfaces where roaches nest, run or hide; 5 to 6% chlordane or 1% dieldrin in powder form in cracks and crevices. Do not use chlordane or dieldrin as a space spray. Insecticide-treated paper may be used in drawers and cabinets. For roaches resistant to chlordane and dieldrin, use 2 to 3% malathion or 2% ronnel.
<b>ANT</b> 	Mainly annoyance and contaminator of food. Some species sting or bite.	Outside the house use 5% chlordane or 1% dieldrin dust directly on ant hills. Inside the house where there is no danger of contaminating foodstuffs, use 2% chlordane liquid or 5% chlordane dust, 0.5% lindane or 2 to 3% malathion on baseboards, walls and floor cracks. In proximity to foods, use a pyrethrum spray. Insecticide-treated paper may be used in drawers and cabinets.
<b>FLOUR-BEETLE</b> 	Causes waste and contamination of edible food.	Practice scrupulous cleanliness in kitchen and pantry. When infestation occurs: 1. Discard all packages of infested food. 2. Transfer contents of open, uninfested packages to screw-top jars. 3. Remove dishes, utensils and food; scrub storage shelves thoroughly. Spray with 5% DDT, 2% chlordane, 2% malathion or 0.5% lindane.
<b>MOSQUITO</b> 	Some species are disease carriers (encephalitis, malaria, yellow fever). Others are harmless, but cause great discomfort.	Provide adequate 18-mesh screening, tightly fitting door and window frames. Paint screens, windowsills, doorsills with solutions containing 2% chlordane, 0.5% lindane or 5% DDT. Use 5% DDT, 0.5% dichlorvos, 1% ronnel or 2 to 5% malathion as space sprays to destroy mosquitoes that do get in.
<b>BEDBUG</b> 	Bloodsucker. Bites may be annoying.	Spray mattresses lightly and bedframes thoroughly with 5% DDT, 0.1% lindane, 1% malathion or 1% ronnel. Treat wall cracks and baseboards in infested rooms with 5% DDT in oil, 10% DDT dust or spray with 2 to 3% malathion, 0.5% lindane or 1% ronnel.
<b>FLEA</b> 	Disease carrier; in one stage of development, host of tapeworm. Bite highly annoying.	Spray floors, baseboards and walls of infested houses to a height of one foot with 5% DDT, 2% malathion, 5% Methoxychlor or 1% ronnel. Treat infested dogs and their sleeping quarters with 10% DDT dust, 5% malathion dust or special lindane dust or aerosol prepared for dogs. Treat cats and their sleeping quarters with rotenone or pyrethrum dust. Do not apply DDT to cats or puppies.

**BATTLE AGAINST "SQUEEZE" BEGINS WITH ROOM EXTENSION (BEFORE)** — When the "space squeeze" hit an active family of seven, they retaliated with an 8x12-foot extension on their combination family and dining room. This "before" photo shows gypsum wallboard ready for finishing. Homeowners later changed decorating scheme to factory finished hardwood plywood.

**FINISHED PROJECT TIES EXPANSION WITH BEAUTY (AFTER)** — Result of this remodeling is attractive early-American family room gained with little outlay of cash or labor. Room divider and two accent walls utilize Brasilia style plywood made from imported veneers. The hardwood paneling from Georgia-Pacific sells for less than \$10 per 4x8-foot factory finished wall section and goes up with a few finishing nails, some contact cement and, in this case, just one weekend of family fun.

### Outdoor Living Can Be Fun

Outdoor living is fun. That is, it can be fun when mosquitoes and other insects are effectively controlled.

Whether it's cookouts, games or just soaking up the summer sun, insects can make the difference between an enjoyable time and an afternoon or evening swatting session.

Today's homes are better landscaped, and the lawns are better cared for. But, landscaping means shrubs, trees and plants, and these are all hiding places for insects. In the past people have had to live with these pests, but now, according to the National Sprayer and Duster Association, modern

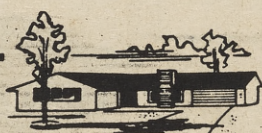

sprays and dusts together with efficient application equipment help to effectively control insects.

There is a wide variety of application equipment, which, if properly used on shrubs and lawns, will help eliminate insects before your outdoor activities. Lawn insects include chiggers, and grasshoppers. Compressed air sprayers, ranging in capacity from 1½ to six gallons, may be best for application on small areas, while wheeled units may be most efficient for larger areas. These same applicators can be used

to control insects on ornamental shrubs, flowers and trees.

In addition to insects which make their home in lawns there are others which live and multiply in shrubbery and plantings around patios. Here again there is a wide variety of application equipment which can be used to eliminate these pests.

# Home Improvement Section

## Plywood Yields Furniture For Gardens

Family dinners on the patio are as much a part of summer living as sunshine and sandboxes. And an easy-to-build patio dining set of plywood makes a credible looking garden furniture addition.

In buying plywood for this

table and chair set be sure and stipulate exterior type plywood bonded with a waterproof adhesive. This will eliminate any worry about the outdoor furniture if it stays out in the rain.

The entire set can be built

by anyone who can follow directions, use a few simple tools, and devote a few nights to the family workshop.

### Exterior Required

To begin with, scale up the square diagram on wrapping paper, making a full-sized pattern. Then cut the chair leg pieces from the exterior grade plywood, orienting the grain vertically. You can get five half chairs from each 4x8 panel.

Next, notch legs to interlock, fasten the seat and affix the back with waterproof glue and slim brass screws. Pre-drill holes to avoid splitting edge grain.

To make stock for the table legs, glue and nail two pieces of 3/4 inch thick A-C plywood back to back. These legs fit together much as the chair legs do but are butted rather than notched. After fitting the lumber skirt and cushioned shaped plywood table top, the furniture is ready to paint.

## Illusions Created With Bold Leaf Garden Patterns

It's wonderful the way certain plants can create a special illusion in the garden. These afford the home gardener the opportunity to achieve any landscape effect or theme that suits his fancy.

Tropical plantings seem tailor made for enhancing California architecture — whether it be in residential or commercial areas. Accounting for this popularity are the bold leaf patterns of the so-called tropical plants. In summertime, especially, they look cool and feel cool. Even though the mercury goes up, the garden seems tolerable because of the cool-looking plants.

Certainly the tropical Philodendron is a widely-planted shrub for achieving desired landscape effects. Members of the California Association of Nurserymen have many varieties of Philodendron available. These will range from the huge, serrated-edged leafed outdoor ones to smaller, vining, types suited for patio or indoor culture. Large, mature plantings of Philodendron in the landscape are indeed an attractive sight to behold. In inland areas, these will want summer shade. Even where winters are severe you'll find gardeners going to the effort of protecting them from frost, as the beauty they add to the garden is matchless.

### Glossy Leaves

This is also true of the glossy leaf Aralia, which is a favorite throughout the state. While the large leaves create a tropical accent, the Aralia may be inter-planted

with other shrubs and still maintains eye appeal. These are at home in tubs or in patio settings — or in open ground. In general, they need no pampering, but in mild winter areas and in hot valleys it would be best to ask your C.A.N. nurseryman's recommendation on planting sites.

Coastal gardeners are accustomed to growing Rubber Plants (of the Ficus family) in open areas, while in the interior valleys, sun and frost have dictated their being used as patio or indoor plants. This reflects the versatility of the Rubber Plant, whose luxurious foliage rates it one of the tropical favorites. There are several varieties available in C.A.N. nurseries. While one variety may have long, narrow leaves there are others that have oval foliage. Those with a pendant for such plants usually end up with one of each.

A semi-vine with a tropical flair is Fatshedra. It is a hybrid of Aralia and Ivy. It has the deep glossy green color of one parent, and the rambling growth of the other and leaves look like what they are — half Aralia and half Ivy.

Fatshedra may be used in darkly shaded places where other vines do not flourish. It will grow in a tub and makes a good covering for a wall under an overhang. It will scramble, ivy-like, up any support and needs only an occasional pruning to keep it in order.

To protect vulnerable lower walls in a child's room, install a wainscot of Masonite woodgrained or textured hardboard, available in a variety of patterns.

## Hardboard Wall Covering

Hardboard is an all-wood fiber board made from exploded wood fiber, felted and pressed into board form and heated and shaped by flatbed hydraulic presses. Hardwood, although made from wood, has a slower combustion rate than wood because of the removal of turpentine, oil and certain other inflammable ingredients.

Untempered hardwood is intended for interior use exclusively. In making this product no chemical binders are added.

## How Acoustical Materials Work

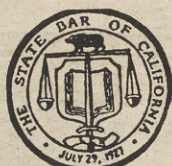

The sound absorbing value of most materials is dependent to a greater or lesser degree on its porous surface. Sound waves entering these pores, or holes, get lost and are said to be dissipated into heat energy. Other materials depend on absorption action to reduce sound. The material used has a vibration point which approaches zero. Heavy draperies or hangings, hair felt and other soft flexible materials function in this manner.

## LAW IN ACTION

### TWENTY-FIVE YEARS LATER

In 1942 the Ace Water Meter Company sold many meters to a city. All were installed in 1950 in a new tract. In 1967 several broke, damaging the homes.

The homeowners sued the Ace Company. They claimed the meters were defective when made in 1942. Since the meters were unfit for their intended use when sold, the homeowners felt that company was liable.

The court agreed. A seller must guarantee that his products are fit for their intended use. If it is found — even twenty-five years later — that they were unfit when sold, the company is liable for damages. Of course, the court expects the owners to prove there was an original defect which caused all the harm. If the damage is caused by wear, or by poor installation, there is no continuing liability.

In recent years the law of warranties has widened. Now a manufacturer or seller of food products, drugs, appliances, or almost any product may be charged with the damage which was caused by defects. The item need only be shown to be unfit for its intended use.

All who are "reasonably" exposed to the defective item share in the protection afforded by the law of warranties.

Many cases involve defective cars. Despite resales, liability for breach of warranty goes on. In one early case a buyer drove his new car around the block. A wheel came off and struck a nearby pedestrian. The pedestrian sued the manufacturer of the car, saying the warranty of fitness covered him. He recovered damages. Even though he was not the buyer or user of the car, he was protected by the warranty of fitness. In short, there was no need to show a lack of care by the manufacturer — only that the car was not fit for its intended use.

The warranty of fitness is not met merely because the item is made according to de-

signed standards. For example, in one case a drug was made in strict compliance with food and drug rules. The company showed no lack of care. But when the drug turned out to have harmful effects, the manufacturer was liable for damages.

The law of warranties, however, applies only to sales. It does not, apply to "services." For a person providing "services" to be liable, there must be proof of negligence, or proof of a separate guarantee.

There are flowering trees for every climate in the United States. Some combine flowers with fruits, like the crabapples, which can supply jellies. Others offer triple advantages, such as flowers, fruits, and shade, such as apples and cherries. Peaches provide flowers and fruits.

## Fireplaces An Asset

A well-built, fire-safe chimney is an asset to a home, and if well designed, will add a touch of distinction to its appearance.

Whether a chimney will work properly depends on flue size, wall construction, smoothness of linings; also its height and its direction (without sharp bends or offsets).

### SELF SUPPORTING CHIMNEY

The chimney should be self-supporting and so constructed that it is independent of the house framing. Soil conditions determine the size of the footing needed, but a footing should never be less than 12 in. thick and it should extend at least 6 in. beyond each face of the chimney. Walls of a chimney with fire clay flue lining should be at least 4 in. thick if built of brick, not less than 8 in. thick if built of stone.

### Roofing Over

In re-roofing houses covered with composition material, whether in the form of roll roofing or imitation shingles, it is usually best to strip off the old material. Otherwise, moisture may condense on the roof deck below and result in rapid decay of sheathing.

The name of the game is "hide-a-fridge." Or so it would seem with all the new decorator panels and colors available for today's electric refrigerators. With modern insulating techniques, there's more room on the inside, smaller dimensions on the outside.

## Refrigerators Have Capacity Plus!

No other kitchen appliance is used more often by the entire family than the refrigerator! And the new models offer just about everything Mother, Dad or the kids could ever ask from this trusty food-and-ice-keeper!

Today's refrigerator-freezers have almost twice the cubic-foot storage capacity of the older combinations, without occupying any more floor space. A miracle? Not really! Refrigerator manufacturers now use more efficient insulating materials which allow the walls to be thinner. And the new, specially-hinged doors require no clearance space.

Zero-degree freezers are standard in all but the lowest-priced budget models. Have the freezer across the top, at the bottom, or on the side. The choice is yours! Almost all are frost-free, just like the fresh-food compartment. As a result, Mother

can forget the messy defrosting job.

Dad and the kids will appreciate the automatic and self-filling icemakers, available on many models. One manufacturer offers a special ice-cube server, mounted on the freezer door.

Cleaning beneath and behind the refrigerator used to be an impossible job, without a stevedore handy to move the monster. Now — at last — wheels or rollers are available which make the refrigerator as easy to move as a chair on a waxed floor. They can be locked in place between moves, to keep the refrigerator from creeping.

Inside, many refrigerators have special compartments in which meats can be kept fresh for nearly a week, without freezing, and "zones" which keep cooked or baked foods moist, without covering.

Along with all these extra

features, it goes without saying that 1968 refrigerator shelves are adjustable, to accommodate any size or shape from a whole turkey to a sandwich. There's plenty of door storage, too, including removable egg servers and built-in butter conditioners.

Refrigerator styling gets better every year. There's a wide choice of color, inside and out, as well as decorator kits which allow you to design your own refrigerator front.

Every Gold Medallion Home has a new refrigerator or refrigerator-freezer in its total electric kitchen.

### "INSTANT" CLEANING MEANS MORE LEISURE

Housework is always a chore, but in the lazy days of summer, it can become downright drudgery.

This summer, resolve to get out of the house fast, by enlisting all the timesavers and stepsavers available. Take a tip from cleaning experts and whenever possible, use two-in-one cleaning products and "instant" cleaners — both will give you just that much more time to work on your tan.

Get with the aerosol era — and you'll find you can clean and disinfect as easily as pushing a button. One small household miracle (both an instant and a two-in-one product) is the aerosol spray cleaner with disinfectant.

Just spray it on, wipe it off, and you've both cleaned and germ-proofed, quickly and efficiently. This new product kills staph and strep germs and prevents mildew — yet there's no rinsing because there's no film. (It's so easy, you may feel a bit guilty.) Aerosol spray is perfect for the kitchen and bathroom, of course, but it is recommended also for any and all washable surfaces throughout the house, including walls, floors, and, of course, baby's room and equipment.

Since some cleaning jobs follow you outdoors, let aerosol spray make short work of cleaning up picnic and camping paraphernalia. It is especially helpful where there is no water for rinsing.

## Dramatize Those Bare Garden Spots, Make Beauty Spots!

Floods or droughts aside, nearly every garden has a trouble spot that crops up year after year. Usually the despair of home gardeners, these areas can actually become the focal point of your garden.

The reason for the problem may be that it's become a well-worn path for children and pets, that the soil is inhospitable to plant life, or that the area is exposed to too much sun or gets no sun at all.

Rather than convert such spots to green-painted concrete slabs, there are a number of ways to make them into unusual and eye-catching plus factors.

One method is to carefully mark off the limits of the area, and start digging. After you have removed the soil to a depth of one foot, fill in about eight inches with crushed stone, and top off with four inches of smaller stones, gravel or pebbles.

After edging with aluminum or redwood strips, which should be left an inch or so higher than the pebbles, you are ready to produce an instant garden.

A sunny spot will provide a happy home for clay potted geraniums, in red, white or pink. Simply remove the pebbles and stone to a depth large enough to accommodate the pots and pop in your plants.

If your plants are profes-

sionally grown, odds are they will be in clay pots, and have the right kind of soil for healthy growth. If they aren't in clay pots, it would be wise to repot them.

The reason is that the walls of the clay pots are porous, and you don't have to worry about over-watering. Excess water from your garden sprinkler will simply drain out through the sides of the pot, as will any excess salts — thus virtually duplicating soil action. Non-porous pots allow the water to build up in the pot and induce root rot.

If the idea of pebbles is a bit too much for you as a topping, try redwood chips
